

Value Proposition - Billing & School Fees Collections Solution for Chartered Institute of Human Resource Management, Ghana (CIHRM)

1. A Unified Billing, Payments & Reconciliation Platform

The Emergent Payments solution goes beyond traditional bank or PSP collections by delivering a full billing-to-payment lifecycle designed specifically for Educational Institutions.

What this means for CIHRM:

- Centralized billing for tuition, membership subscriptions, graduation fees, examination fees, and other institutional charges.
- Direct linkage between student/member records, billing, payment confirmation, and service delivery.
- Elimination of fragmented bank portals, mobile money confirmations, and manual reconciliations.

2. Student/Membership Wallet as a Control Layer (Not a Replacement for Parents)

The wallet acts as a controlled virtual account mapped uniquely to each student or member, without replacing existing bank or mobile money wallets.

Key Benefits:

- Each student/member ID functions as a unique wallet/virtual account.
- Payments can be made via bank transfer, mobile money, cards, or USSD without requiring portal access.
- Funds are credited instantly and mapped accurately, reducing payment errors.
- Supports seamless collections across all major mobile networks.

3. Transparent Commercials

The commercial structure is transparent, flexible, and usage-based, ensuring CIHRM pays only for successful transactions.

Top-ups attract no platform fees from CIHRM; charges are channel-based only.

This ensures:

- Predictable transaction costs.
- Clear and simplified reconciliation.
- Charges applied only on successfully processed payments.

4. Real-Time Visibility & Finance-Grade Reconciliation

A key differentiator is automated reconciliation, not just payment confirmation.

For Finance & Management:

- Real-time notifications of all payments received.
- Automated reconciliation against:
 - o Student/member ID
 - o Fee category
 - o Academic period or service type
- Downloadable reports aligned with settlement statements.
- Strong audit trails for internal and external audits.

5. Seamless Integration with Existing Systems

The platform is designed to integrate seamlessly with CIHRM's existing finance and student management systems.

Integration Value:

- API-based synchronization of student/member data and outstanding bills.
- Automated update of payment status in real time.
- Elimination of manual uploads, spreadsheets, and delayed confirmations

6. Enhanced User Experience & Administrative Efficiency

Students, alumni, and members gain convenience while administrative teams gain greater control.

User Benefits:

- Convenient payment experience through USSD, mobile money, bank transfer, and cards.
- Instant digital receipts and payment confirmations.
- Access to transaction history and payment tracking.

Administrative Benefits:

- Reduced queues, disputes, and manual follow-ups.
- Faster confirmation and processing of payments.
- Improved operational efficiency across Finance and Administration.

7. Multi-Network USSD Accessibility

The integrated USSD solution enables payments from all mobile networks, improving accessibility and convenience.

Key Advantages:

- Instant payment processing and confirmation.
- Increased accessibility for students and members nationwide.

- Reduced dependency on a single mobile network provider.
- Improved collection efficiency and customer experience.

8. Reduced Risk & Revenue Leakage

The solution significantly reduces operational and financial risk.

Risk Mitigation:

- Eliminates unidentified or suspense payments.
- Prevents underpayments and incorrect fee selection.
- Ensures services are delivered only after confirmed payment.
- Strengthens governance, compliance, and audit readiness.

9. Clear Advantage Over Traditional PSPs

Traditional PSPs	Emergent Payments Solution
Payment collection only	End-to-end billing and payment management
Manual reconciliation	Automated real-time reconciliation
Limited fee categorization	Multiple fee-type management
Limited integration	Seamless system integration
Single-network dependency	Multi-network USSD accessibility

10. Conclusion

The Emergent Payments Billing & School Fees Collections Solution provides the Chartered Institute of Human Resource Management (CIHRM) with a secure, scalable, and future-ready financial infrastructure that combines structured billing, real-time reconciliation, seamless system integration, and multi-network payment accessibility while improving operational efficiency, financial control, and user experience.
